

Synovetin OA[®] At-Home Guidelines

Following Synovetin OA treatment, you can have normal interactions with your dog (as detailed below), and your dog can resume whatever activity level they are comfortable with.

For the next _____ weeks, use the following as guidelines for the time you spend with your dog.

15 minutes a day

Hugging, snuggling, holding, etc.

Within 1 foot*

4 hours a day

Sitting/laying nearby, brushing, etc.

Within 1 foot - 3 feet*

Unlimited time a day

Walking, running, playing fetch, etc.

Greater than 3 feet*

*Distance from dog's treated elbow to your torso.

After the duration indicated above, your family can resume all interactions with your dog, including sleeping in bed.
